Retirement Update 5/15/2021

To all patients and interested parties:

I've been in discussion with a well respected and highly competent local dentist, Dr. Joseph Rosenwald, regarding finding a new home for some patients that will be displaced by my retirement on 9/30/2021. Dr. Rosenwald has indicated his willingness to care for patients from our practice after my retirement.

Dr. Rosenwald is a graduate of Mt. St. Mary's University and Georgetown University Dental School. He also completed a dental residency program with the Veterans Administration prior to entering private practice in 1985. He has been in private practice in the Gaithersburg area from 1985 through the present, and possesses a level of skill and the necessary experience to meet any dental challenge.

In addition to his education at the prestigious institutions mentioned above, Dr. Rosenwald has had extensive training at the Pankey Dental Institute, the Misch Implant institute, and the Dawson Academy for Advanced Dental Study. Joseph has also participated in the Esthetic Continuum at Louisiana State University Dental School. His credentials as a dentist are second to none in my experience. Please see his website at: www.drjrosenwald.net for more information.

Besides his stellar academic and clinical qualifications, Dr. Rosenwald has a kind, compassionate, and upbeat personality. He also has a great sense of humor, and a philosophy of practice that puts the best interests of his patients as his first priority. His office is warm, welcoming, well maintained, and he has some state of the art technology that will serve his patients well. I'm delighted to recommend him as a successor for your dental needs going forward.

Please call our office with any questions.

Warm regards,

Dr. Glass
